KERASAN

COLLECTION BOOK

KERASAN è una delle prime aziende del polo ceramico di Civita Castellana (VT). Fondata nel 1960, è specializzata nella produzione di linee di sanitari in pregiata ceramica. Con gli anni Duemila, Kerasan ha intrapreso un percorso di qualità introducendo, accanto ad un'eccellenza artigianale, nuove tecnologie ed un'attenta ricerca sul design. Oggi l'azienda è presente sui principali mercati internazionali con collezioni bagno complete di arredi, accessori e rubinetteria.

KERASAN is one of the leading companies in the ceramics centre of Civita Castellana (VT). Founded in 1960, the company specialises in the production of fine ceramic bathroom fixtures. Over the years, Duemila Kerasan has embarked on a path where quality is presented together with excellent craftsmanship, new technology and careful design research. Today, the company is present in the major international markets with bathroom collections complete with furnishings, accessories and fittings.

Attraverso un moderno complesso industriale che si sviluppa su 14.000 mq KERASAN è in grado di produrre fino a 1.000 elementi ceramici al giorno, utilizzando un perfetto mix fra alta tecnologia e competenze artigianali. La qualità di ogni prodotto parte dalla selezione delle materie prime, analizzate e deferrizzate direttamente in azienda, prima della preparazione degli impasti. La maggior parte degli elementi di pregiata ceramica sanitaria vengono realizzati in Vitreous-china mentre il fire-clay (meno soggetto a ritiro da cottura) viene utilizzato su piatti doccia o elementi di grandi dimensioni. Fra i dettagli che sottolineano la ricerca qualitativa dell'azienda troviamo la smaltatura interna dei vasi (sifone, brida esterna) ed un complesso sistema di test finali per verificare prove di carico su sanitari sospesi, lavabi e la funzionalità degli scarichi di ogni vaso. Il sistema di qualità "CheckSan" garantisce la conformità dei sanitari Kerasan alle norme EN 997 europee e AS1172 australiane. KERASAN è certificata UNI EN ISO 9001:2008.

Through a modern industrial complex that is spread over 14,000 square metres, Kerasan is capable of producing up to 1,000 ceramic pieces per day, making use of a perfect mix of high technology and craft skills. The quality of each product starts from the selection of raw materials, analysed and deferrised in-house, before the preparation of mixtures. Most of the fine ceramic bathroom wares are made of Vitreous-china, while fine fire-clay (less shrinkage from cooking) is used on shower trays or large items. Among the details highlighting the company's qualitative research are internal toilet glazing (siphon, external U-clamp) and a complex system of final tests to verify load tests on suspended fixtures and washbasins and the functionality of each vessel's discharge. The "CheckSan" quality system guarantees compliance with the Cerasa EN 997 European health standards and Australian AS1172. KERASAN is certified UNI EN ISO 9001:2008.

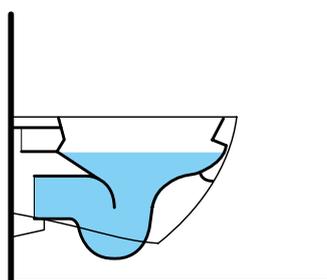

WATER SAVING

Kerasan, attiva da molti anni nel settore degli idrosanitari, ha progettato per tutte le sue collezioni una soluzione innovativa e capace di ridurre gli sprechi d'acqua: un sistema di scarico che permette di scegliere tra uno parziale con 3 litri d'acqua ed uno totale con 4,5 litri. Ciò garantisce un risparmio idrico notevole ad ogni utilizzo. L'uso abbinato tra wc e cassetta di scarico è conforme ai requisiti richiesti per i vasi di classe 2 in base alla norma EN 997 (standard europeo per i wc). Rispetto ai sanitari classificati in classe 1, tale norma prevede che i wc siano caratterizzati da maggiori prestazioni e che non consumino più di 6 litri per lo scarico.

Kerasan, with its long-standing experience in the sanitary ware industry, has now created an innovative solution which is able to reduce water wastage thanks to its flush system which is available with either a partial cistern of 3 litres or a full 4,5 litre cistern. This guarantees a considerable saving of water at each use. The combined use by the WC and cistern complies with the requirements for class 2 WC pans based on European WC standard n° EN 997. Compared to the sanitary ware listed under class 1, said standard provides that the WC are more efficient and do not consume more than 6 litres per flush.

Fabbrichiamo prodotti di qualità non solo perché ce lo chiede il mercato, ma perché fare prodotti di pregio, apprezzati in tutto il mondo, ci fa sentire orgogliosi di quello che siamo e di ciò che facciamo. Questo è il pensiero che ispira Kerasan. Per tale motivo, tutte le fasi di lavorazione sono interne, a partire dal laboratorio di analisi delle materie prime e dei test dei semilavorati, fino alla produzione degli impasti e alla formatura del prodotto finito. Qualità e design, innovazione e rispetto per l'ambiente sono i principi che hanno imposto il nostro nome e le nostre collezioni nella fascia più alta del mercato, italiano e internazionale. Da oltre 50 anni..

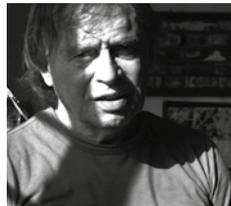

We manufacture quality products not just because the market requires that we do sobut because producing quality products, appreciated throughout the world, makes us feel proud of what we are and of what we do. This is the mindset that inspires Kerasan. And as a result, all the processing phases are in-house, from the raw materials analysis laboratory and testing of the semi-finished products, up to production of mixtures and molding of the finished product. Quality and design, innovation and respect for the environment are principles that have firmly established our name and our collections at the top end of the market, Italian and international. For over half a century..”

BENTLEY

Designer Marc Sadler

Tra essenziale sobrietà di linee e contrasto cromatico di materiali, il punto di equilibrio ideale è una collezione bagno che fa dell'eleganza il suo tratto distintivo.

La sapienza progettuale di Marc Sadler introduce un nuovo concetto di sanitari, che acquisiscono una straordinaria capacità di arredare. L'algida lucidità della ceramica si mette in contrapposizione con il calore del legno, nelle versioni hemlock e frassino, per creare elementi funzionali di grande forza estetica, dedicata a chi non vuole rinunciare al gusto e allo stile. Con la collezione Bentley, Kerasan apre un nuovo orizzonte per l'ambiente bagno, un luogo dove il design acquisisce piena cittadinanza e la raffinatezza trova inedita espressione.

In sintonia con le tendenze dell'oggi, ma proiettato in un futuro senza tempo.

Striking the perfect balance between sober, understated styling and chromatic contrasts, the ideal bathroom collection makes elegance its distinctive trait.

The skillful design of Marc Sadler introduces a new concept in bathroom fixtures, which become extraordinarily decorative. The cool shine of ceramic is juxtaposed with the warmth of wood, in hemlock and ash, to create pieces that are practical but also aesthetically striking, dedicated to those who refuse to compromise on taste and style. With the Bentley collection, Kerasan opens up a new horizon for the bathroom, as a place where design claims full citizenship and sophistication finds consummate expression.

In step with today's trends, but with our eyes trained on a timeless future.

Lusso da primi anni del '900, architettura neo-gotica americana, linee nobili e raffinate: sono tante le suggestioni che il nome Waldorf evoca. Kerasan ha reinterpretato proprio queste ispirazioni, per creare una collezione di sanitari di alto livello estetico e qualitativo, che trovano la loro collocazione ideale in ambienti arredati con grande eleganza, sia tradizionale sia contemporanea.

Gli elementi caratterizzanti sono la forma rettangolare ammorbidita da angoli stondati e bordi a doppio spessore, che richiamano uno stile classico e monumentale. Articolata in tutti gli elementi del bagno, la nuova collezione Waldorf si pone al vertice della gamma di sanitari firmati Kerasan.

Early twentieth-century luxury, neo-Gothic, American architecture and noble, elegant lines: just a few of the many styles suggested by the name Waldorf. Kerasan has re-elaborated these inspirations to create a collection of exquisite, high-quality sanitaryware which is ideal with very elegant furnishings, both traditional and modern. Its main features are the rectangular shape which is softened by rounded corners, and extra thick edges which evoke a classic, monumental style. The new collection by Waldorf includes all bathroom elements and represents the ultimate of Kerasan's range of sanitaryware.

CIOTOLE

La bellezza non è nulla senza la qualità.
I lavabi d'arredo Kerasan hanno dentro tutta
l'esperienza industriale, la sapienza tecnologica
e la cura artigianale di un'azienda
totalmente Made in Italy, che ha saputo
conquistare il mondo.

Beauty is nothing without quality.
Kerasan's stylish washbasins combine
the industrial experience, technological
know-how and high craftsmanship of an
all-Italian company that has garnered
international acclaim.

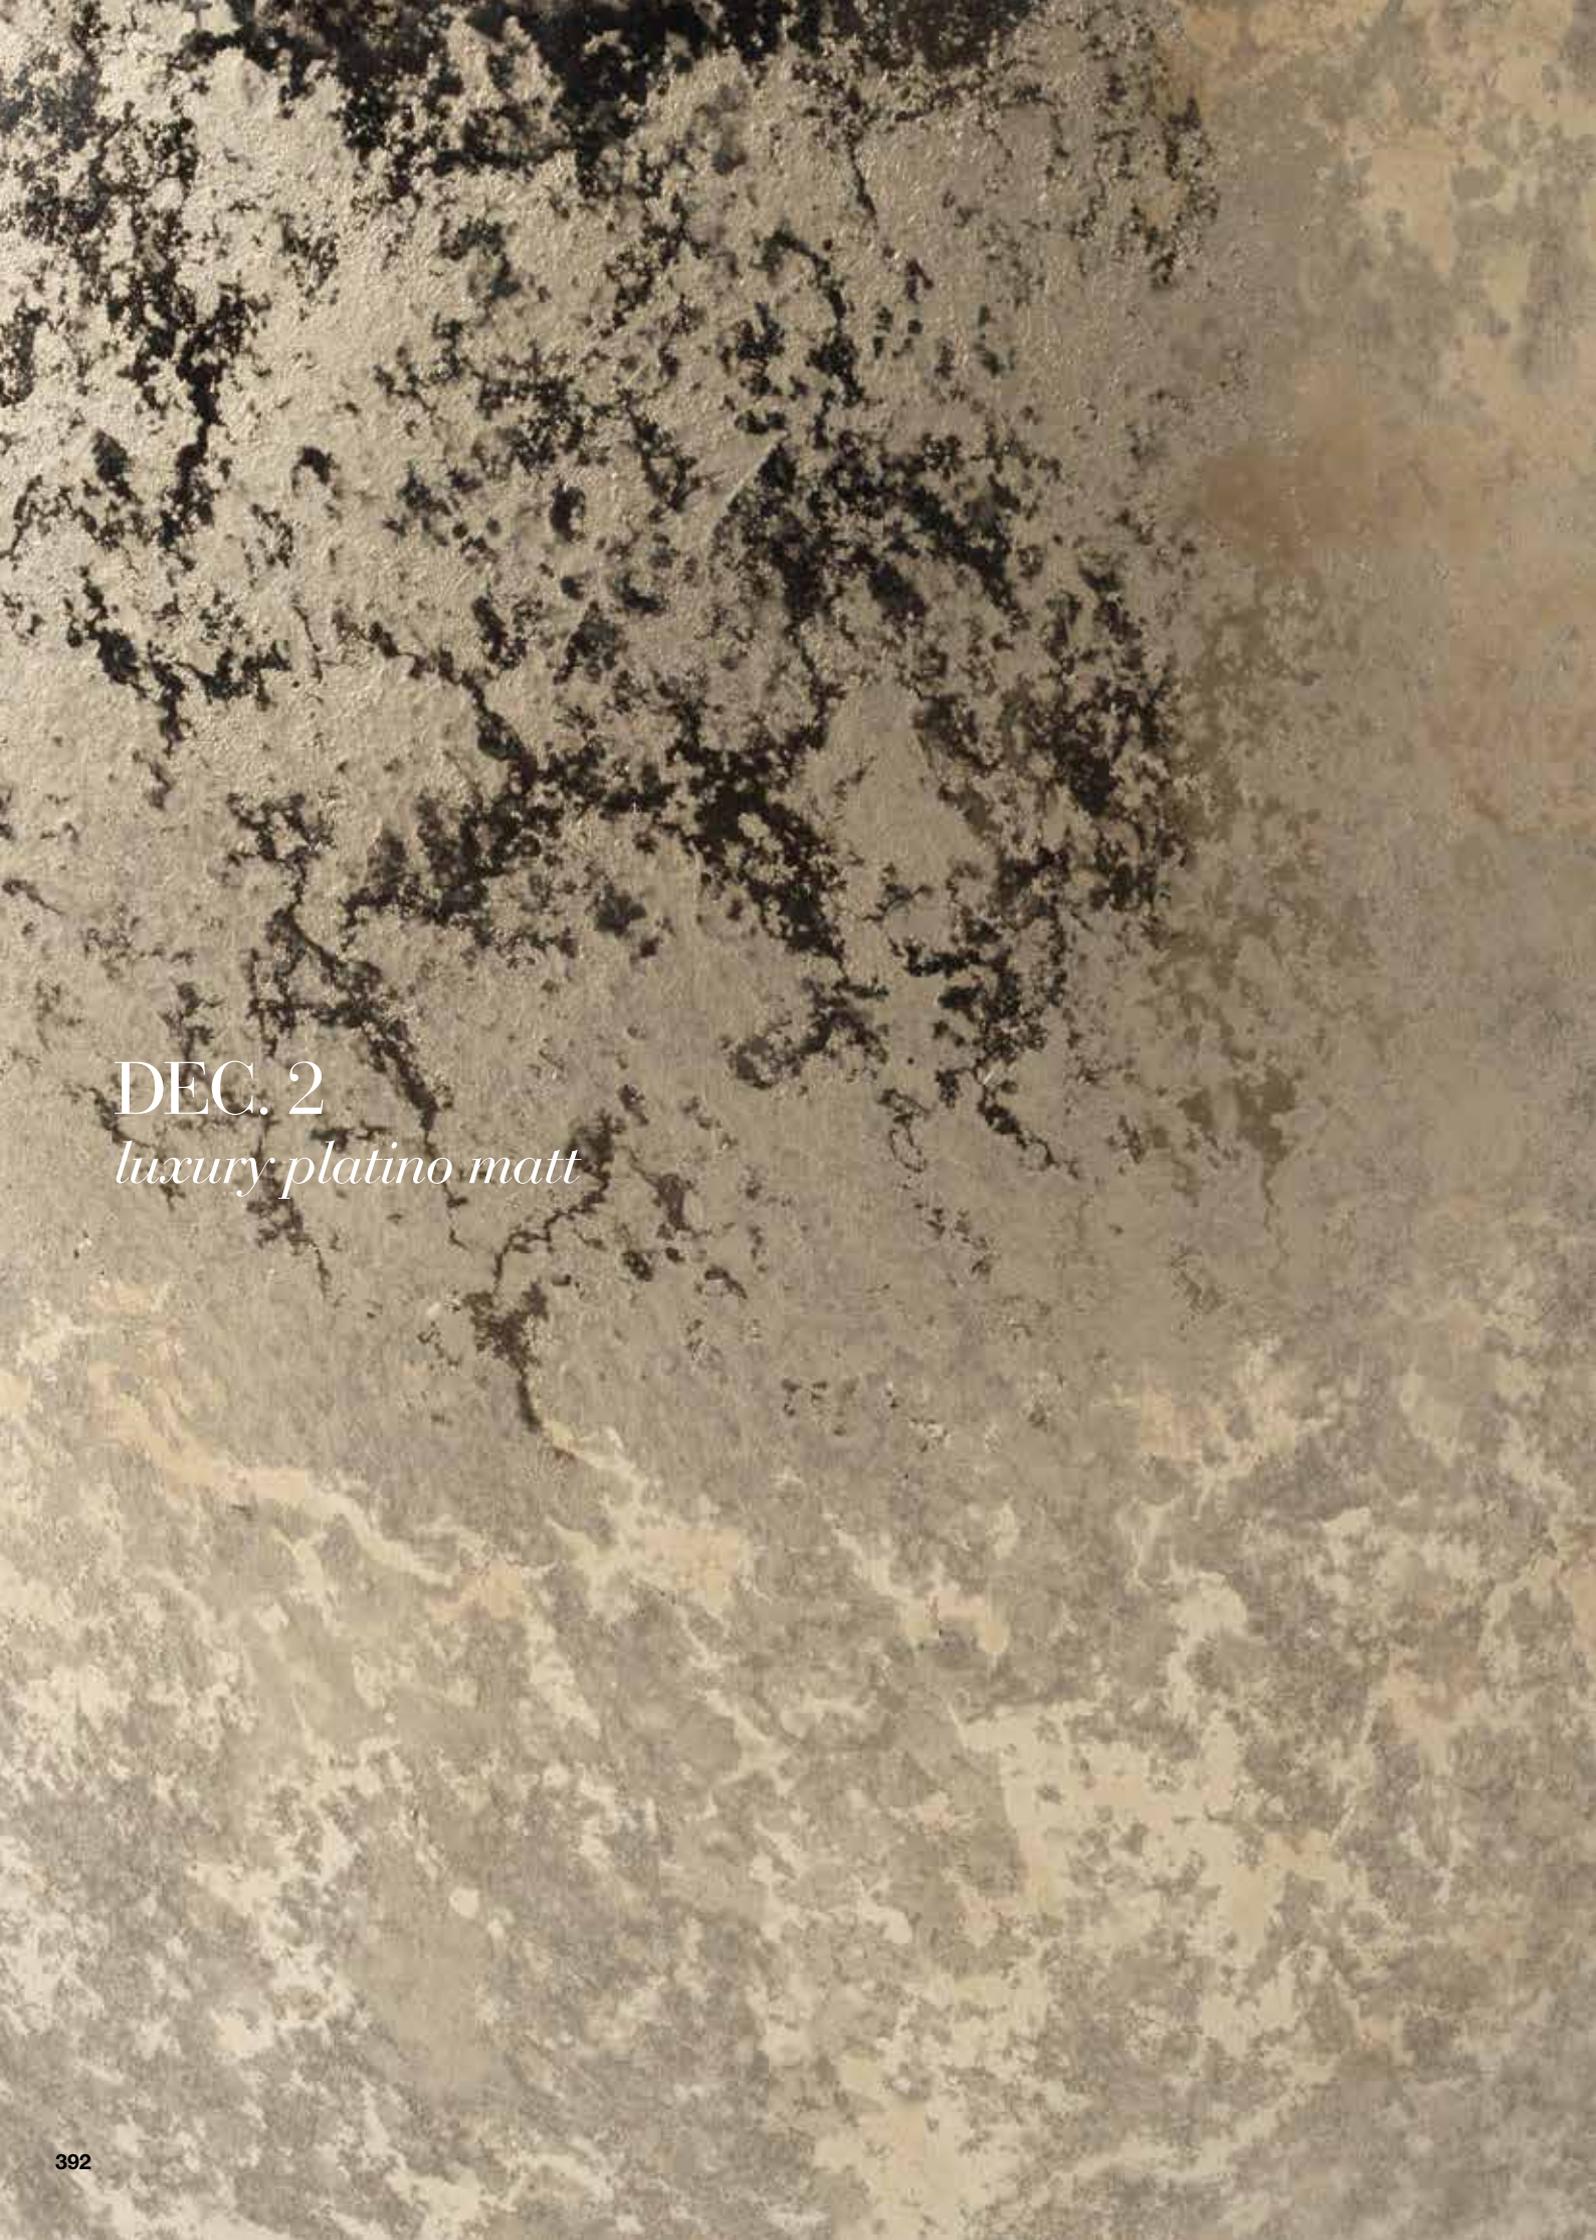

DECORAZIONI SPECIALI

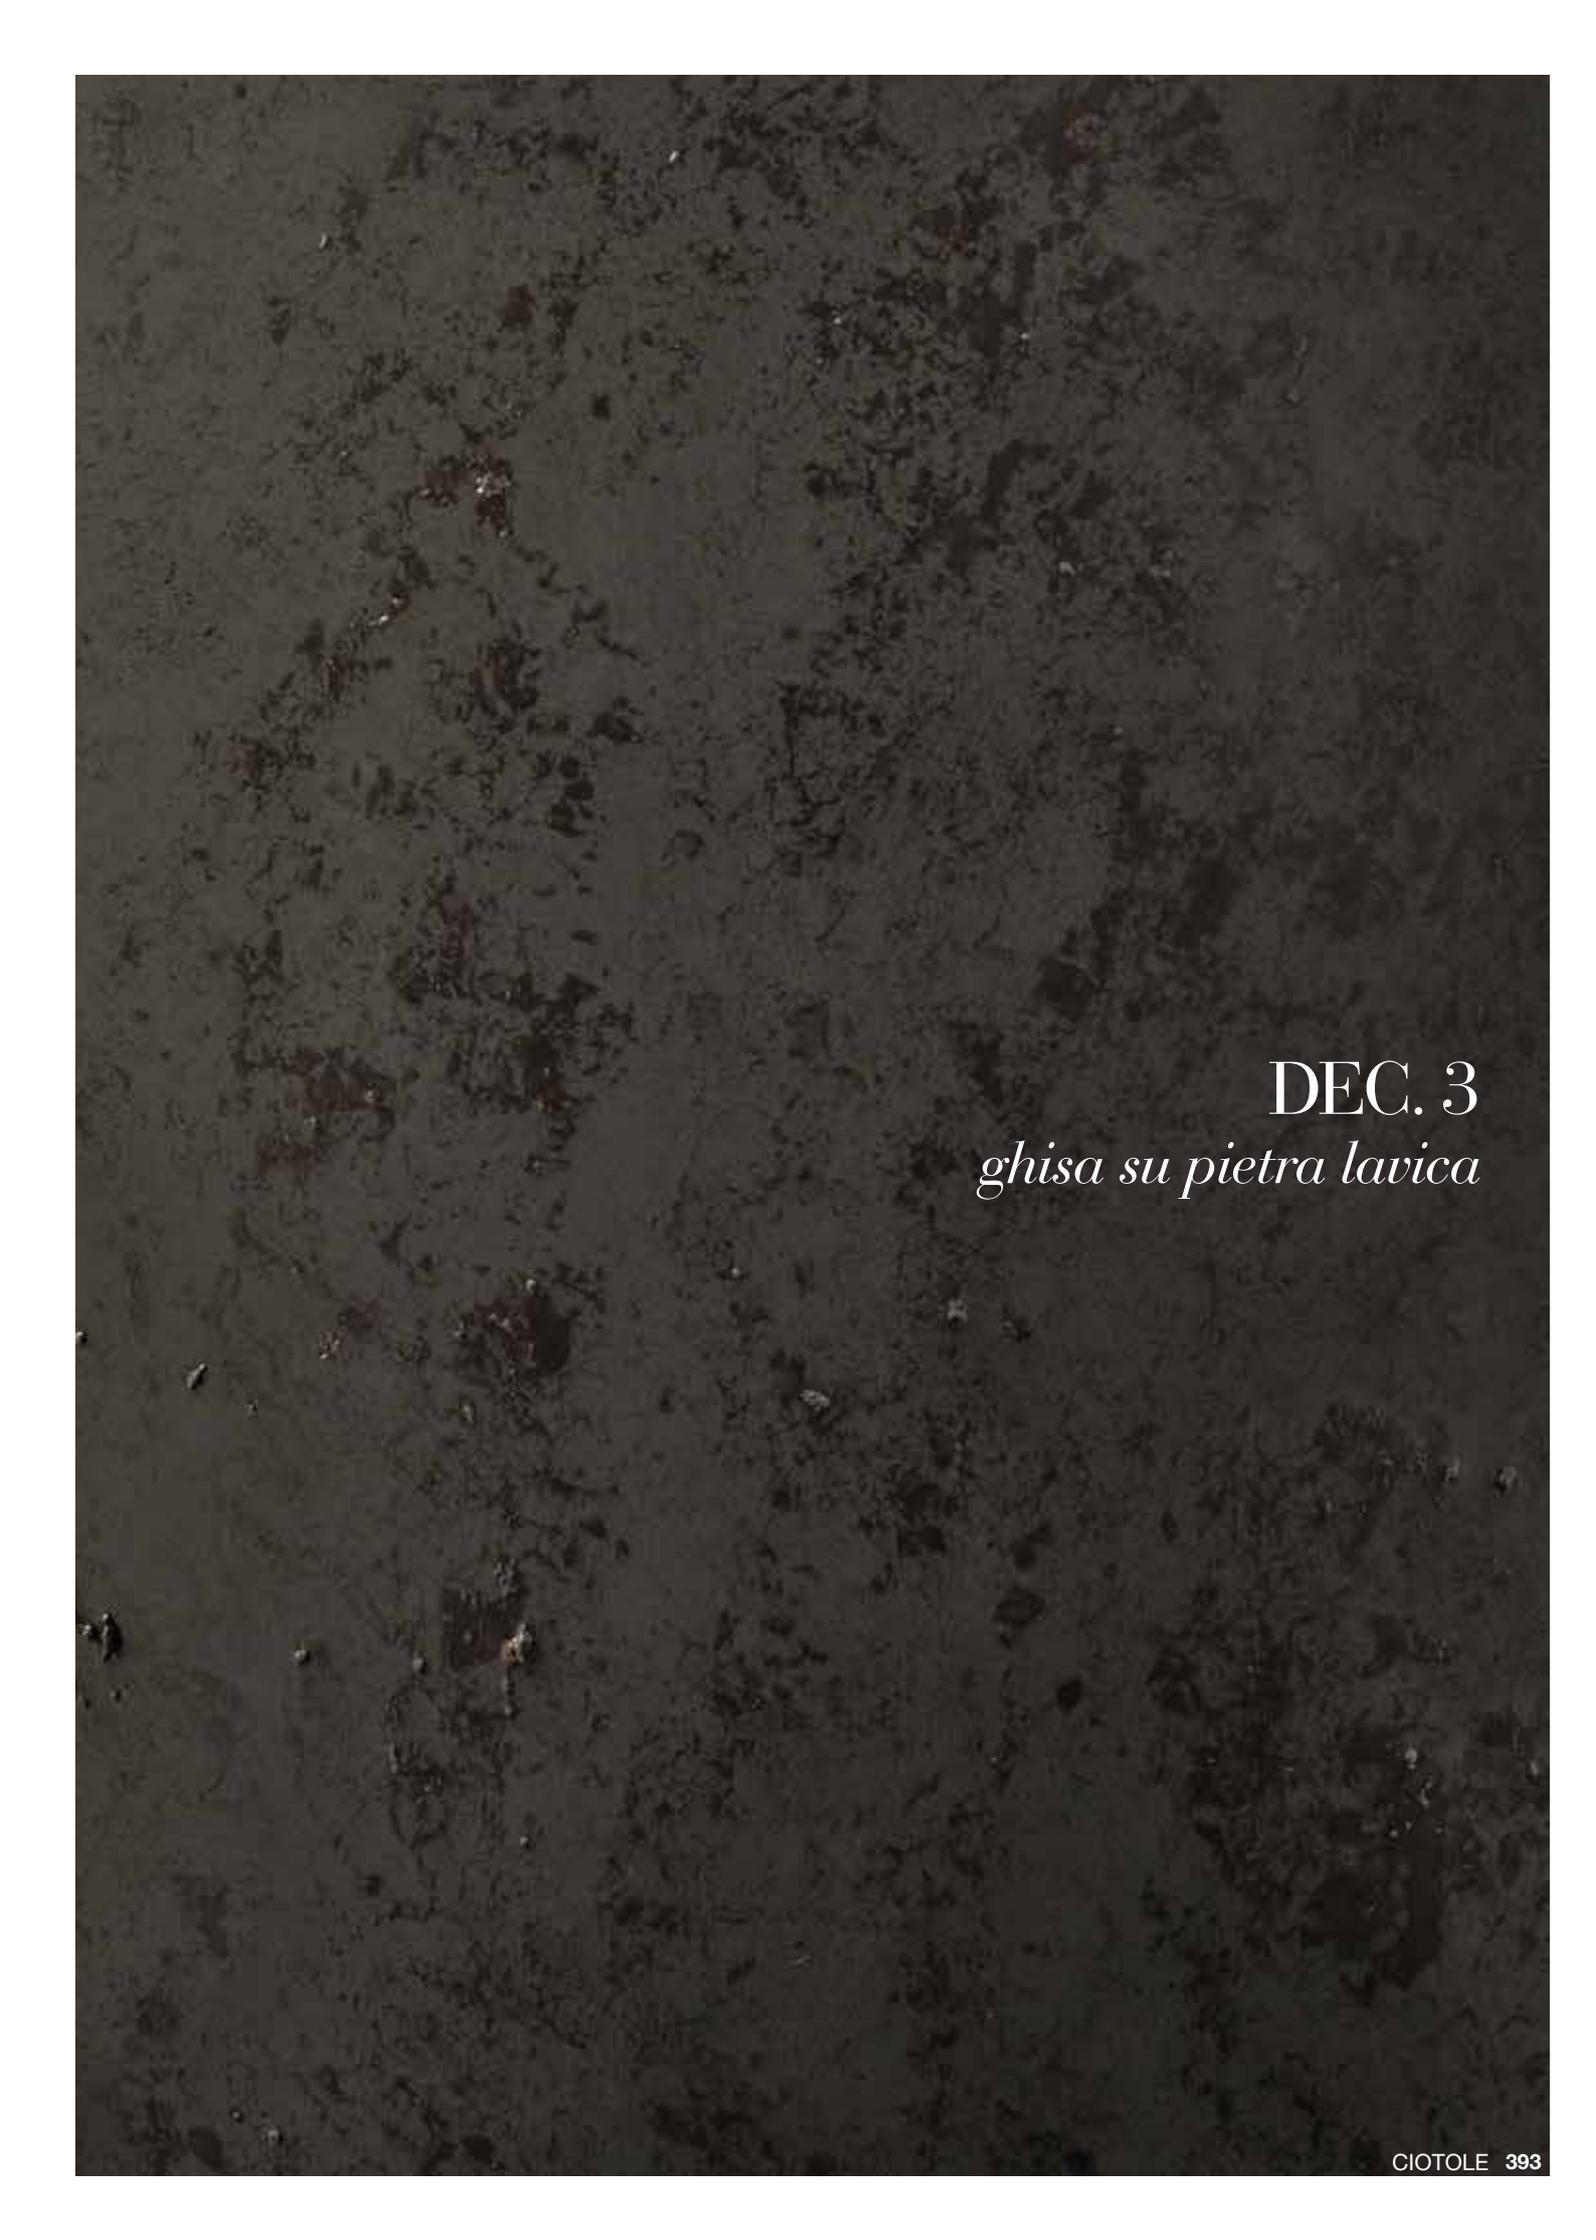

La ricerca dell'esclusività ha portato Kerasan ad esplorare strade inedite della decorazione. Oltre al colore, in tutte le possibili finiture, i lavabi d'arredo sono oggi disponibili anche in cinque nuove versioni, dove la materia diventa protagonista di bellezza e lusso. E' una proposta di grande innovazione e originalità, per chi desidera inserire nel bagno un raffinato segno di distinzione.

The pursuit of perfection has led Kerasan into new, unexplored dimensions of design. In addition to the colour and many different finishes, our stylish washbasins can be supplied in five different versions, illustrating how matter can play a starring role in the beauty and luxury stakes. This is a highly original and innovative offering for all those looking for something distinctive for their bathrooms.

FIN | finitura in acciaio
steel finish

I piatti doccia Dune si prestano a più soluzioni d'installazione.

Possono essere incassati nel pavimento, lasciando a vista solo il bordo superiore in ceramica spessore 4 cm (figura 1)

o appoggiati sul pavimento con un doppio bordo, uno superiore di 4 cm con ceramica a vista ed uno inferiore sempre di 4 cm rivestito in acciaio (figura 2).

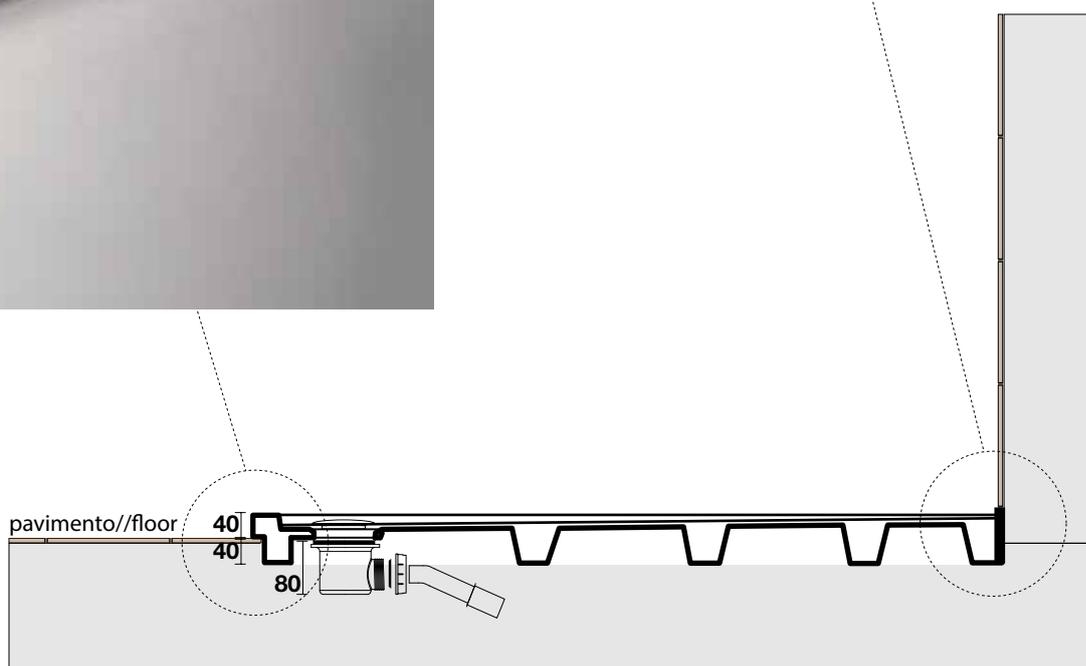

Nella figura 3 si evidenzia l'originalità di questo piatto doccia, che su i due lati muro presenta un bordo sottile studiato appositamente per essere sormontato dal rivestimento, con il vantaggio che, a differenza di altri piatti doccia, si ottiene una superficie calpestabile più grande e senza impedimenti retrostanti.

La particolare lavorazione in rilievo all'interno del piatto doccia , che da il nome alla collezione " dune", rappresenta una soluzione innovativa in grado di coniugare la sicurezza di un piano antiscivolo con la raffinatezza e l'eleganza di un minimal design.

in **MARMORESINA**

Il piano inclinato facilita lo scorrimento dell'acqua e con soli 25 mm di altezza si adatta all'installazione sia filo pavimento che sopra pavimento.

The slope permits excellent draining and with a total height of 25 mm the shower tray may be installed normally on the bathroom floor or sunk in level with the flooring.

Installazione del piatto doccia a filo pavimento.
The shower tray can be installed flush to the flooring.

7040 | piatto doccia 80x120 antracite
shower tray 80x120 anthracite

PIATTI DOCCIA IN MARMORESINA

La resina miscelata con minerali garantisce elevate prestazioni tecniche e strutturali ed è ideale sia per ambienti interni che esterni. L'impasto è totalmente pigmentato: ciò significa che l'interno del prodotto e la superficie del piatto doccia hanno lo stesso colore. Il piano inclinato facilita lo scorrimento dell'acqua e con soli 25 mm di altezza si adatta all'installazione sia filo pavimento che sopra pavimento. La superficie è antiscivolo con trama pietra.

Il prodotto è adattabile anche per installazioni in fuori squadra, in quanto è di facile taglio con disco apposito.

Il piatto doccia viene fornito completo di piletta di scarico e copertura piletta in acciaio inossidabile.

MARBLE-RESIN SHOWER TRAYS

Resin mixed together with minerals guarantees mechanical high-performance and aesthetic features. The shower trays can be installed inside or outdoors. The shower tray body is pigmented in the same color as the shower tray surface, it is anti-slip and it reproduces a stone surface.

The shower trays can be installed in out of square corners.

The trays can be cut by using the appropriate cutting tool. The slope permits excellent draining and with a total height of 25 mm the shower tray may be installed normally on the bathroom floor or sunk in level with the flooring. The shower tray comes complete with siphon and stainless steel drain cover.

in **ACRILICO**

Caratteristiche tecniche dell'antiscivolo:

il sistema antiscivolo consiste nell'applicazione sul piatto doccia in Acrilico di vernice epossidica-acrilica dalle alte prestazioni, con finitura lucida brillante e molto resistente alle macchie. Consente una facile pulizia del piatto anche con prodotti e detergenti chimici casalinghi, industriali e resistente alla pulizia a vapore.

Anti-slip technical features:

The anti-slip system consists of the application of high performing acrylic epoxy paint on the shower tray. This paint has a polished shiny surface and is very resistant to stains. It makes cleaning of the tray easier, is suitable for the use of household and industrial chemical detergents and is resistant to steam cleaning.

Caratteristiche del Piatto Doccia in Acrilico h3:

- Realizzato in pregiato Acrilico Antibatterico che non ingiallisce nel tempo.
- Rinforzato con doghe in legno affogato nella vetroresina assicura una maggiore robustezza.
- Piletta ispezionabile ribassata (meno di 6cm di altezza) con diametro 9cm permette di scaricare 25 litri al minuto.
- Facile installazione sia versione in appoggio che a filo pavimento.

Features of the h3 Acrylic Shower Tray:

- Made of high-quality Antibacterial Acrylic that does not turn yellow over time.
- More robust thanks to reinforced with wooden slats drowned in fibreglass.
- Lowered 9cm diameter drain that can be inspected (less than 6cm high) and that enables to drain 25 litres per minute.
- Easily installation both for top mount and floor level installations.

Caratteristiche del Piatto Doccia in Acrilico h9:

- Realizzato in pregiato Acrilico Antibatterico che non ingiallisce nel tempo.
- Rinforzato con doghe in legno affogato nella vetroresina assicura una maggiore robustezza.
- Piletta ispezionabile ribassata (meno di 6cm di altezza) con diametro 9cm permette di scaricare 25 litri al minuto.
- Piedini in acciaio regolabili impediscono al piatto doccia di flettere durante l'utilizzo.
- facile applicazione per ristrutturazioni parziali senza dover spostare vecchi impianti.

Features of the h9 Acrylic Shower Tray:

- Made of high-quality Antibacterial Acrylic that does not turn yellow over time.
- More robust thanks to reinforced with wooden slats drowned in fibreglass.
- Lowered 9cm diameter drain that can be inspected (less than 6cm high) and that enables to drain 25 litres per minute.
- Adjustable steel feet prevent the shower tray to flex during use.
- Easy application for partial renovations without having to move old installations.
